Holiday Greetings

Wishing You a Joyful & Prosperous Deepavali!

As the festive season of lights approaches, we wanted to take a moment to extend our warmest wishes to you and your loved ones on the occasion of Deepavali, also known as Diwali.

Deepavali is a time when families and communities come together to celebrate the victory of light over darkness and good over evil. It is a time of reflection, gratitude, and spreading happiness.

May this auspicious festival bring you joy, prosperity, and an abundance of blessings.

With heartfelt wishes,
Team Million.

Do You Know?

What is the secret behind wearing medals around the neck?

There are a few reasons why **medals** are worn around the neck.

- **Tradition:** Medals have been worn around the neck for centuries, dating back to ancient Greece and Rome. This tradition may have originated from the practice of wearing spoils of war, such as jewelry or weapons, around the neck as a symbol of victory.
- **Visibility:** Wearing a medal around the neck makes it highly visible, which is important for medals that are

awarded for military service or other achievements. This visibility can help to remind people of the recipient's

Unlock the mystery: Is laser marked steel crockery safe to eat off of?

Laser marking on steel crockery involves using a laser beam to etch or engrave markings onto the surface of the steel. The process is commonly used for branding, identification, or decorative purposes on metal items such as utensils, cookware, or crockery.

Laser marking on steel crockery can be considered food safe, provided that certain conditions are met.

The food safety aspect depends on the type of laser marking technology used and the materials involved. Here are some considerations for ensuring food safety.
